Soft Skills

- Problem Solving
- Resourcefulness
- Communication
- Adaptability
- Teamwork

Certifications

Verified Certificate: CS50P:
CS50's Introduction to Computer Science

Summary

Motivated and detail-oriented Backend Development, driven by a profound enthusiasm for constructing resilient and scalable web applications. I aim to apply my technical expertise and problem-solving skill to make meaningful contributions while gaining practical experiences.

Skill Highlights

- Backend Development
- Django Framework
- Git Version Control
- Front-end basics
- SQL
- Debugging

Experience

Team Project: Game Application Development - 09/2015

WAVE Academy / Digital Fortress, NG

- Collaborated with a team to design and develop a game app, contributing to various stages of the game production process.
- Applied project management methodologies to ensure timely delivery and interactive feedback

Personal Projects: Web Application

- Independently developed web applications, managing all aspects from conception to deployment.
- Implementing front-end basics to enhance functionality

Debugging and Troubleshooting

- Assisted peers in debugging code, enhancing application performance and readability

Education

Web Dev: **Python** - 2024

WAVE Academy / Digital Fortress, NG

Bachelor of Science: **Computer Science** – 2023 – Till date

University of the People, CA

CS50's: **Computer Science / Web Programming** - 2023

Harvard University (Online)

Front End Web Development - 2022

Future Academy Africa
