Skills

Technical:
Backend Development, Django, REST API, GitHub, Databases, Debugging, Django Framework

Soft Skills:
Resourcefulness, Communication, Adaptability, Teamwork, Decision-Making, Diversity & Inclusion

Certifications

Python Programming & Soft Skills
W.A.V.E

CS50P: CS50's Introduction to Programming with Python
Harvard University

Front-End Web Development
Future Academy Africa.

WordPress Development
Coursera

Career Growth and Implicit Bias Webinar Co-curricular event

Summary

Fullstack Developer with backend focus, passionate about resilient web applications and continuous learning. Known for mastering new skills quickly and openly tackling challenges, I consistently learn and implement new technologies within tight timelines often within a few days through documentation and rapid implementation.

Experience

Programming Instructor

Digital Fortress Institute — 2024

- Teach Python to students of various ages and skill levels.
- Occasionally teach HTML, CSS, and JavaScript for a comprehensive coding education.
- Lead the "Summer Code with Kids" program, training teenagers in coding fundamentals
- Mentor and guide students through hands-on projects and coding challenges.

Harvard CS50 Programming Course — 2023/2024

- Completed real-world projects, uploaded them to GitHub, and deployed most of them.
- Joined the CS50 community on Discord, collaborating with other students to ask questions and fix bugs.
- Learned how to use Linux and fix bugs related to different Linux distributions compatibility.

Backend Developer

WAVE Academy / Digital Fortress, NG — 05/2024

- Currently collaborating with UI/UX and frontend teams to implement the Django REST framework API for a travel website, enhancing backend functionality to support an interactive and scalable user experience.
- Collaborated with a team to design and develop a game app, contributing to various stages of the process.
- Applied project management methodologies to ensure timely delivery and interactive feedback
